

**SPECKLE**

Frame the Future

Position

## **Digital Design Internship**

Speckle is a cinematic platform for visions on the near future that extrapolates current technological and societal developments through a multi-channel engagement format. Speckle is launching soon as a joint venture between Scape Agency and Oculus Film.

**Do you want to help realise our vision? Become part of our team!**

We are on the hunt for a Digital Design Intern or Graduate Student for preferably 5 days per week for a minimum of 4 months in our office in Amsterdam.

### **What we offer you is:**

You will work on the branding and user interface of our platform under the guidance of experienced designers and cinematographers. Your activities span from the user research, design to the implementation phase. In this way, you will come into contact with all facets of the profession and gain valuable learning and working experience. You will have the chance to make an active contribution to the design development of our brand, user experience and content of our communication channels.

There is an appropriate internship and travel allowance.

## Qualifications

- + You have at least a higher professional education (HBO), and a work and thinking level in a relevant field.
- + Previous relevant internship or work experience is an advantage.
- + You have a strong portfolio that clearly radiates vision and ambition.
- + You have a good sense of design and the will to go beyond pure functionality.
- + You keep up to date with the latest developments in the field and sees to acquire knowledge in your area of specialty.
- + You are a true team player and have the ability to relate well to other professionals in an interdisciplinary environment.
- + You are eager to learn and possesses the flexibility to work in a fast paced, dynamic environment.
- + You are resourceful and creative and are able to structure your work independently .
- + You have a proactive attitude and no 9 to 5 mentality.
- + You have excellent verbal visual, and written English and preferably Dutch language skills.
- + You are currently residing in The Netherlands, and are preferably living in Amsterdam or its immediate surroundings.
- + The possession of a Dutch driving licence is an advantage.

## Responsibilities

- + Thinking along with us about the creative and technical interpretation of our projects.
- + Conducting competitor and customer analysis.
- + Creating wireframes, storyboards, sitemaps and screen flows to conceptualize designs to accurately convey project plans.
- + Keep us up to date with technological innovations and new tools.
- + Content development and preparation for our media-channels.

## Application Procedure

We are regularly looking for new colleagues. If you would like to work with us, please respond to one of our open positions that are published on our website and via our social channels. In addition, we are always interested in passionate professionals and invite exceptional design, development, research and communication talents to send us their open applications.

Applications for all positions should be in English and can be sent to [people@speckle.org](mailto:people@speckle.org), accompanied with a motivation and resume, including personal data, educational background, work experience and software knowledge. Applications for design and development positions should also include designs, visuals and technical material of past work in a portfolio. Please ensure to indicate for which position you are applying in the subject line, and attach your application materials as separate PDF documents, combined not exceeding 10MB. Note that online portfolios, personal websites and download links for documents will not be reviewed.

We will carefully evaluate your application and contact you if your profile matches our current vacancies. Generally, applicants who meet the requirements for experience and skillset will be contacted for an interview within four weeks of applying. In addition to the regular application procedure, we will ask you to independently carry out a case study assignment.

## Internships

Speckle can only accept a small number of interns every year, for a minimum period of four consecutive months. Please indicate in your application the period during which you are available. When sending your application please ensure you indicate that you are applying for an Internship in the subject line.
